Subject: U.S. EPA - Question Regarding Friday's Call on Hunters Point

Here is the response I received from June Williams who we will be talking with this morning following my outreach to her to learn more as to whether she had specific questions for today's call. Talk to you at 9:30am for the pre-brief discussion.

Hi Brent,

Excuse the delay. The purpose of this call would be to learn more. I'm in full listening and learning mode.

I don't have specific questions at the moment but as long as I can ask them during the call that would be most helpful.

Thanks again for making sure this is a productive and useful meeting on all fronts.

June

June A. Williams
District Director
U.S. Senator Kamala D. Harris

June –

My Superfund Division colleagues have asked if I could check in to see if you have any specific questions regarding Hunters Point Superfund Site as they want to be sure to gather any needed information in advance of our Friday call. I know you had asked me if we could share a list of

site contacts that you could share with community members and I included that in the calendar invite and again below.

If you don't have any specific questions, my colleagues can provide a brief overview and address the current status of the workplan for parcel G from the Navy that EPA is waiting to provide comments on as well as address some of the recent media coverage regarding issues involving parcel A.

Please let me know if there is anything else you would like them to come prepared to discuss and I will share with my colleagues. We look forward to talking with you on Friday.
